

## New Temporary Bus Stop B - Ferny Grove Station From Monday 11th July 2022

As you may be aware, the current Bus Stop B at Ferny Grove Station is planned to be relocated as part of the ongoing construction works. This new stop is temporary but likely to be in place for at least 2 years or until the construction phase is complete.

The new Temporary Bus Stop B location will come into effect from Monday 27th June 2022.

Brisbane Bus Lines school bus services will use the new location from start of Term 3 on Monday 11th July for all set-downs and pick-ups and connecting services, both mornings and afternoons.

Whilst we do not anticipate any disruption to our school bus services due to the new stop, we are mindful that changes in traffic flows around the area may have minor timing impacts to some services. If timetable changes are required to offset any major timing impacts, we will communicate these in due course.

The map below (supplied by Translink) shows the location of the new Temporary Bus Stop B in relation to the Current Stop B.

If your child uses the current Stop B as part of their school bus travel, please ensure your child is aware of this change accordingly.

Translink have confirmed that there will be pedestrianised access to Temporary Stop B from the main Ferny Grove Station entrance and platform.

However, with the temporary stop having less standing space for passengers, we strongly encourage students from local schools (Ferny Grove High School, Ferny Grove State School and St Andrews Catholic School) who may currently walk from their school down to Ferny Grove Station to board our bus services, to instead board the bus at their appropriate school location bus stop where possible.
